DESCRIPTION:

----Specifications apply to both items equally unless otherwise specified----

*Item 1: AWW

*Item 2: Sea Partners

(2) Different complete Pop-Up Display Systems comprised of (Three for Item 1 & One for Item 2) full color (minimum 600 x 600 dpi) laminate graphic mural panels, consisting of type/line matter, background illustrations, fine detail agency seals, and some type/line matter reversing out to appear white. Bleeds all sides.

***NOTE: To include lighting, all hardware, fabric end-caps and UPS-wheelable carrying cases.

NOTE: SALIENT FEATURES:

In this section "equal to" will be defined for Display Holders as similar in size (i.e. dimensions), panel material, style, durability and portability as named product.

Display Holders are "equal to":(SKU# TEPUGM10C -
http://www.displays2go.com/bannerguidelines/TEPUGM10C_bannerguide.html)
or:(<http://www.laarhovendesign.com/maverick.aspx>).

***NOTE: Display Holders must meet or exceed the specifications for the above comparison display holders. They must be warranted to operate without mechanical defect for a MINIMUM PERIOD OF 3 years from date of delivery.

FADE RESISTANCE: The inks/paints used must not show any appreciable change in color after exposure in an Atlas Fadeometer for 170 standard fading hours or its equivalent.

MATERIAL FURNISHED: Contractor to pickup at GPO. Two CD-R's formatted for MAC (OS 10) using Adobe Photoshop CS3. Files are supplied in Native Format. Fonts and bleeds are furnished. Contractor to create traps and extend bleeds as necessary.

One complete set of lasers output at less than 100% to show bleeds.

One GPO form 952.

Prior to image processing, the contractor is responsible for checking files contained on the furnished media to insure that such features as bleeds, register marks and correct file output selection have been provided for, so as to correctly generate films for publishing. The contractor must supply necessary trapping. The contractor must generate films on a high resolution image processor.

In addition, the contractor is responsible for creating or altering any necessary trapping, setting proper screen angles and screen frequency, and defining file output selection for the imaging device being utilized. All furnished files must be imaged as necessary to meet assigned quality level.
